

Exhibit B

Ab (655nm)

Apolipoprotein B, Human plasma, low density lipoprotein

Coating Concentration: 10µg/ml of Apolipoprotein B100

Primary antibodies: ScFv SAM6, SAM6.Opti and SAM-6.VH alone and Ab1 Control and Ab1VH Control at neat

Secondary antibodies: Anti-Flag-M2 Monoclonal HRP Antibody

Negative Control 1: No Coating, No Primary and Anti Flag secondary

Negative Control 2: No Coating, Primary and Anti Flag secondary

Negative Control 3: Coated with 10µg/ml ApOB100, No primary and Anti Flag secondary

Volume: 250µl
